

## U.S. SUPREME COURT RULING

In December, the U.S. Supreme Court ruled in a unanimous 8-0 decision that states should have the right to regulate PBMs.

.....

### Why is this important?

- In light of the pandemic, community pharmacists have played a key role in COVID-19 prevention and vaccination. They deserve our support.
  - The ruling allows state control and influence to rein in PBMs and their predatory actions that harm community pharmacists and hamper patient choice.
  - Both sides of the aisle agree – unfair PBM practices are bad for business, bad for patients.
- .....

**Now is the time for Texas to enact regulations that limit PBM overreach into patient choice.**
